Recomendaciones de control interno 2022

Recomendaciones 2022

En el transcurso de la auditoría del centro de Tenerife, no hemos detectado ninguna deficiencia de auditoría ni de control interno.

Adicionalmente, hemos verificado si en la carta de recomendaciones del ejercicio anterior se detectaba algún asunto a tener en cuenta con el objeto de comprobar que se haya subsanado, pero en el caso dicho centro no se incluyeron asuntos en periodos anteriores (en el caso de que sí se incluyera, actualizar).

the 1990s, the number of people who are employed in the service sector has increased in all countries. The increase is most pronounced in the United States, where the service sector has become the dominant sector of the economy. In the Netherlands, the service sector has also become the dominant sector, but the increase is less pronounced than in the United States.

The increase in the service sector has led to a decrease in the number of people who are employed in the manufacturing sector. This is true for all countries. The decrease is most pronounced in the United States, where the manufacturing sector has become the second largest sector of the economy. In the Netherlands, the manufacturing sector has also become the second largest sector, but the decrease is less pronounced than in the United States.

The increase in the service sector and the decrease in the manufacturing sector have led to a change in the composition of the labor force. The labor force is now more service-oriented than in the past. This is true for all countries. The change is most pronounced in the United States, where the service-oriented labor force has become the dominant labor force. In the Netherlands, the service-oriented labor force has also become the dominant labor force, but the change is less pronounced than in the United States.

The change in the composition of the labor force has led to a change in the demand for skills. The demand for skills is now more service-oriented than in the past. This is true for all countries. The change is most pronounced in the United States, where the demand for service-oriented skills has become the dominant demand. In the Netherlands, the demand for service-oriented skills has also become the dominant demand, but the change is less pronounced than in the United States.

The change in the demand for skills has led to a change in the supply of skills. The supply of skills is now more service-oriented than in the past. This is true for all countries. The change is most pronounced in the United States, where the supply of service-oriented skills has become the dominant supply. In the Netherlands, the supply of service-oriented skills has also become the dominant supply, but the change is less pronounced than in the United States.

The change in the supply of skills has led to a change in the wage structure. The wage structure is now more service-oriented than in the past. This is true for all countries. The change is most pronounced in the United States, where the wage structure has become the dominant wage structure. In the Netherlands, the wage structure has also become the dominant wage structure, but the change is less pronounced than in the United States.

The change in the wage structure has led to a change in the income distribution. The income distribution is now more service-oriented than in the past. This is true for all countries. The change is most pronounced in the United States, where the income distribution has become the dominant income distribution. In the Netherlands, the income distribution has also become the dominant income distribution, but the change is less pronounced than in the United States.

The change in the income distribution has led to a change in the social structure. The social structure is now more service-oriented than in the past. This is true for all countries. The change is most pronounced in the United States, where the social structure has become the dominant social structure. In the Netherlands, the social structure has also become the dominant social structure, but the change is less pronounced than in the United States.

The change in the social structure has led to a change in the culture. The culture is now more service-oriented than in the past. This is true for all countries. The change is most pronounced in the United States, where the culture has become the dominant culture. In the Netherlands, the culture has also become the dominant culture, but the change is less pronounced than in the United States.
